PvP DEATHMATCH TOURNAMENT

When could I do it?

1. A bigger group of friends comes to your arcade to celebrate sth, like birthday, or even a casual meeting.
2. You want to set the date of the tournament with advance to bring clients at some less busy hours.

How could I do it?

1. Divide the people to groups of 4 or 3.
2. Each group plays the deathmatch game.
3. You take the winners from each group, which play together in the final match (You may to take the first two of each group if there are not enough people).

EXAMPLE

1. A group of 12 people comes in the VR facility and rent 4 stations.
2. You divide them into 3 groups of 4.
3. Each group takes turn in playing, after each match you note down the winners.
4. The winners play the last final match.
5. You might reward the winner with some promo items etc.
